SUMMARY

Frontend & App Developer with quite experience in Flutter and React development. Skilled in UI/UX design, mobile navigation, and responsive web architecture. Proficient in JavaScript (ES6+), Redux, Firebase, REST APIs, and Git. Committed to building clean, user-focused applications and continuously learning new technologies.

EDUCATION

B.Sc. Computer Science and Information Technology

Lumbini City College, Tribhuvan University • Tilottama, Rupandehi, Nepal • 2019

EXPERIENCE

Frontend and App Developer Intern

Solarius Technology Pvt Ltd

March 2023-September 2023, Tilottama, Rupandehi

- Contributed to building cross-platform mobile applications using Flutter and Dart, **reducing development time by 20%** through efficient component reuse.
- Assisted in developing and refining frontend features with React.js and basic Next.js, **improving user interface responsiveness by 30%**.
- Integrated RESTful APIs to enable real-time data fetching and syncing, **enhancing app performance by 35%**.
- Implemented push notification features that **increased user re-engagement by 25%**.
- Actively participated in Agile development cycles and used Git for version control, improving team collaboration and **delivery speed by 20%**.

PROJECT

Restaurant Mobile App(Flutter Framework, Dart Codebase, Supabase, Firebase Cloud Messaging (FCM), Google Api, Provider.)

<https://portfolio-rosy-eta-27.vercel.app/> • January 2025 - Present

- Built client-side app for customers to browse menu, place orders, and view order history in real-time
- Created admin dashboard for restaurant staff to manage orders, update menu items, and send push notifications.
- Integrated Google Maps API to enable location-based services map directions, user locations etc.
- Implemented real-time push notifications on order status updates.
- Focused on responsive UI/UX using Flutter's flexible widget system for a smooth experience on various Android devices.

To-do APP(Flutter Framework, Dart Codebase, Provider, SQLite, Flutter Notification.)

<https://portfolio-rosy-eta-27.vercel.app/> • June 2024 - September 2024

- Built clean and intuitive UI using Flutter to allow users to add, edit, delete, and categorize tasks efficiently.
- Integrated SQLite for lightweight, offline-first local database to persist task data across sessions.
- Implemented Flutter Local Notifications to remind users of scheduled tasks and daily goals.
- Enabled users to set due dates, mark tasks as complete, and filter views based on task status or priority.
- Implemented the charts to visualize task completion rates, daily/weekly productivity, and category distribution.

Consultancy Website(React.js + Vite, Sass, bootstrap, react, React Router DOM.)

<https://portfolio-rosy-eta-27.vercel.app/> • february 2024 - Aprill 2024

- Built fast performance and modular component-based architecture.
- Created reusable components such as navbars, service cards, testimonial sliders, and contact forms.
- Integrated smooth scroll, hover animations, and interactive elements for engaging user experience.

Skills

Frontend Technologies: React.js, Next.js (Basic), HTML5, CSS3, SCSS, Tailwind CSS, Ant Design, Component-Based Architecture.

Languages: JavaScript (ES6+), Dart.

State Management: Redux and provider.

API Integration: RESTful Services, JSON.

Mobile Development: Flutter Framework (Cross-platform iOS/Android).

Databases (Basic): Firebase (Authentication, Firestore), Supabase
